

Butts County

Butts County 4-H has successfully served over 200 fifth grade students by providing hands-on interactive lessons in STEM education in each of the elementary schools in the county. In addition, a team of students represented the county in the Cotton Boll and Consumer Judging competition, showcasing their talents and knowledge. More than 35 students participated in summer camps, and the county also offered many summer fun activities, such as soap-making and water activities, to keep the students engaged and entertained. The county managed to fund these summer activities through successful fundraisers like the poinsettia sales for the holidays and the spring jewelry sale.

A healthy Georgia is a better Georgia.

University of Georgia Cooperative Extension offers programming focused on mental health, financial well-being, nutrition and everything in between. UGA Extension had 1,808,305 face-to-face contacts in 2023. Of these, 170,771 contacts addressed health and wellness topics, including rural and farm stress.

Extension is committed to helping rural Georgia farmers and families thrive. UGA Extension provides physical and mental health resources to keep rural Georgia growing stronger, especially when times are tough. Our new Behavioral Health Team provides fact sheets, trainings and a weekly blog—all to help Georgia individuals and families thrive.

Get the facts.

UGA Extension publications are the go-to source for unbiased, research-based information in the state of Georgia.

Growing cities.

UGA Extension helps urban gardeners develop school gardens, community gardens and urban farms to benefit their communities. Extension works with educators to create sustainable outdoor classrooms that function as successful teaching tools. Community gardeners are supported in growing healthy food crops in small spaces while urban farmers are encouraged to apply the latest agricultural research to grow their businesses.

Committed to Georgia's youth.

Georgia's 4-H enrolled 173,505 youths across the state during the 2022-23 school year.

2024 FAST FACTS

UGA Extension translates the science of everyday living for families, farmers and communities to foster a healthy and prosperous Georgia.
