

Evans County

- Vidalia onions are traditionally harvested with hand labor using a pair of onion clipping shears because they are more susceptible to bruising, yet this method transfers bacterial inoculum by means of the clipping shears. A two-year study was conducted comparing clipping onions at different neck lengths to reduce the rate of internal bacterial rot. In a recent survey at the 2023 Vidalia Onion Grower Meeting, 46% of the participants responded they were harvesting onions with longer neck lengths because they believe it is beneficial for reducing center rot due to study findings.
- Seventy-two campers made memories and learned valuable skills that will last a lifetime at 4-H youth summer camp in 2023.
- Our Family and Consumer Sciences Agent served 10 clients through the Volunteer Income Tax Assistance program and secured \$9,797 in federal and \$377 in state refunds with no charge for services.

UGA Center for Agribusiness and Economic Development

A healthy Georgia is a better Georgia.

University of Georgia Cooperative Extension offers programming focused on mental health, financial well-being, nutrition and everything in between. UGA Extension had 1,808,305 face-to-face contacts in 2023. Of these, 170,771 contacts addressed health and wellness topics, including rural and farm stress.

Extension is committed to helping rural Georgia farmers and families thrive. UGA Extension provides physical and mental health resources to keep rural Georgia growing stronger, especially when times are tough. Our new Behavioral Health Team provides fact sheets, trainings and a weekly blog—all to help Georgia individuals and families thrive.

Growing cities.

UGA Extension helps urban gardeners develop school gardens, community gardens and urban farms to benefit their communities. Extension works with educators to create sustainable outdoor classrooms that function as successful teaching tools. Community gardeners are supported in growing healthy food crops in small spaces while urban farmers are encouraged to apply the latest agricultural research to grow their businesses.

Committed to Georgia's youth.

Georgia's 4-H enrolled 173,505 youths across the state during the 2022-23 school year.

Get the facts.

UGA Extension publications are the go-to source for unbiased, research-based information in the state of Georgia.
