

Fannin County

More than 400 fourth and fifth grade students have learned by doing with Fannin County 4-H hands on activities. Students learned about science, public speaking, community service and citizenship. Every student learned how to create a speech and give a presentation as a part of Project Achievement. Outside of school, students have had the opportunity to expand their knowledge into areas they are passionate about by joining judging teams and showing livestock. Poultry Judging and Cotton Boll and Consumer Judging offer students the ability to practice their critical thinking, decision making and reasoning skills. Community support of the program is growing, with over \$4,000 donated last year to help send youth to summer camp at no cost.

A healthy Georgia is a better Georgia.

University of Georgia Cooperative Extension offers programming focused on mental health, financial well-being, nutrition and everything in between. UGA Extension had 1,808,305 face-to-face contacts in 2023. Of these, 170,771 contacts addressed health and wellness topics, including rural and farm stress.

Extension is committed to helping rural Georgia farmers and families thrive. UGA Extension provides physical and mental health resources to keep rural Georgia growing stronger, especially when times are tough. Our new Behavioral Health Team provides fact sheets, trainings and a weekly blog—all to help Georgia individuals and families thrive.

Growing cities.

UGA Extension helps urban gardeners develop school gardens, community gardens and urban farms to benefit their communities. Extension works with educators to create sustainable outdoor classrooms that function as successful teaching tools. Community gardeners are supported in growing healthy food crops in small spaces while urban farmers are encouraged to apply the latest agricultural research to grow their businesses.

Committed to Georgia's youth.

Georgia's 4-H enrolled 173,505 youths across the state during the 2022-23 school year.

Get the facts.

UGA Extension publications are the go-to source for unbiased, research-based information in the state of Georgia.

2024 FAST FACTS
