

Miller County

At the Miller County Extension office, we give growers the information and tools they need to achieve maximum yields on their operations for peak profitability. One of the ways we do this is through state variety testing. This year the Agriculture and Natural Resource agent, in collaboration with state specialist, created and conducted a variety trial testing the performance of a nematode-resistant peanut variety called TifNV-Hg. This variety was planted and replicated with two other resistant varieties. When picked, the new variety weighed 500 pounds per acre more than the others (22 MPR, FL 52N). It also graded four points higher. This will bring growers in Miller County and across the state a high-yielding, nematode-resistant peanut variety to plant on their operations.

A healthy Georgia is a better Georgia.

University of Georgia Cooperative Extension offers programming focused on mental health, financial well-being, nutrition and everything in between. UGA Extension had 1,808,305 face-to-face contacts in 2023. Of these, 170,771 contacts addressed health and wellness topics, including rural and farm stress.

Extension is committed to helping rural Georgia farmers and families thrive. UGA Extension provides physical and mental health resources to keep rural Georgia growing stronger, especially when times are tough. Our new Behavioral Health Team provides fact sheets, trainings and a weekly blog—all to help Georgia individuals and families thrive.

Growing cities.

UGA Extension helps urban gardeners develop school gardens, community gardens and urban farms to benefit their communities. Extension works with educators to create sustainable outdoor classrooms that function as successful teaching tools. Community gardeners are supported in growing healthy food crops in small spaces while urban farmers are encouraged to apply the latest agricultural research to grow their businesses.

Committed to Georgia's youth.

Georgia's 4-H enrolled 173,505 youths across the state during the 2022-23 school year.

Get the facts.

UGA Extension publications are the go-to source for unbiased, research-based information in the state of Georgia.

2024 FAST FACTS

UGA Extension translates the science of everyday living for families, farmers and communities to foster a healthy and prosperous Georgia.
