

Murray County

Flowing out of the Cohutta Wilderness into Tennessee and back into Georgia, the Conasauga River is one of the most biologically diverse rivers in North America, home to many threatened or endangered aquatic species. Murray County Extension partnered with Whitfield Extension and Polk Extension (University of Tennessee) to conduct the 2023 4-H2O Camp, giving 4-H'ers an opportunity for experiential learning and collaborative efforts. Fifty-five 4th-12th grade 4-H'ers were introduced to interpreting topographical maps, competed in H2O Olympics, a Project Wet lesson on adhesion/cohesion, and participated in Explorers of the Deep, a 4-H STEM Challenge to design ocean gliders and calculate ballast, buoyancy and density.

A healthy Georgia is a better Georgia.

University of Georgia Cooperative Extension offers programming focused on mental health, financial well-being, nutrition and everything in between. UGA Extension had 1,808,305 face-to-face contacts in 2023. Of these, 170,771 contacts addressed health and wellness topics, including rural and farm stress.

Extension is committed to helping rural Georgia farmers and families thrive. UGA Extension provides physical and mental health resources to keep rural Georgia growing stronger, especially when times are tough. Our new Behavioral Health Team provides fact sheets, trainings and a weekly blog—all to help Georgia individuals and families thrive.

Growing cities.

UGA Extension helps urban gardeners develop school gardens, community gardens and urban farms to benefit their communities. Extension works with educators to create sustainable outdoor classrooms that function as successful teaching tools. Community gardeners are supported in growing healthy food crops in small spaces while urban farmers are encouraged to apply the latest agricultural research to grow their businesses.

Committed to Georgia's youth.

Georgia's 4-H enrolled 173,505 youths across the state during the 2022-23 school year.

Get the facts.

UGA Extension publications are the go-to source for unbiased, research-based information in the state of Georgia.

2024 FAST FACTS
