Coweta Clover Connection

255 Pine Road | Newnan, Georgia 30263 | 770-254-2620
Coweta.Extension@uga.edu | www.ugaextension.org/coweta

September 2023

4-H BB Gun Team Registration

OPEN TO 4th - 9th GRADERS
Activity fee and additional information will be provided at the meeting.

Must attend the Informational meeting:
Thursday, September 28th at 6:30pm
at the Coweta Extension Office,
255 Pine Road, Newnan

Shooting safety and hunter education will be the focus for the first 8 weeks. At the end of that time, try-outs and a test will determine this year's team.

Limited Spots available
Contact our office for more info

Come see us at the Coweta County Fair!

September 14th - 24th

You can enter your homemade CRAFTS, ARTWORK, PHOTOS, BAKED GOODS, & MORE!

Check out all of the categories at www.cowetacountyfair.net

5 CLUB POINTS September 2023

5th Grade 4-H Lesson #1
Constructive & Destructive Forces
Georgia's Barrier Islands

Vocabulary

Barrier Island - a long, narrow strip of land that lies parallel to the mainland
Erosion - the process of moving sediment by wind, water, or ice
Deposition - process in which sediments, soil, and rocks are dropped or added to a landform or land mass
Constructive Force - processes that build up Earth's surface
Destructive Force - processes that break down Earth's surface
Weathering - process of breaking up rocks into sediments; can be mechanical or chemical
Sand Dunes - natural erosion control on the beach made from piles of sand and other vegetation
Sea Oats - natural erosion control on the beach, the roots spread out in vertical runners and stabilize the dune

THE LONGSHORE CURRENT MOVES THE SAND.

Camp Jekyll 1960

Camp Jekyll 1990

Camp Jekyll 2020

60 Years of Deposition on the South End of Jekyll Island, GA

The dots on the section of the island in each picture above are located on the same building.

<u>Evaluate/Communicate</u>: **What differences do you see in the pictures of Camp Jekyll? How did the changes occur?**
