

Marion County

In Marion County, conservation tillage and cover crop planting have not traditionally been widely adopted practices. However, after conducting needs assessment activities and hosting a Cover Crops 101 program in conjunction with NRCS, cover crop acreage in Marion County has increased by around 14% and will expectantly increase with continued programming. Marion County 4-H programs have focused on many different areas, but a favorite is STEAM. 4-H'ers participated in monthly STEAM Club meetings where they learned about engineering, DNA, gravity and creativity through science. After the final meeting, 4-H'ers and parents stated that participants had an increased interest in STEAM topics and they would be extremely likely to continue exploring this passion in a STEAM-related field.

A healthy Georgia is a better Georgia.

University of Georgia Cooperative Extension offers programming focused on mental health, financial well-being, nutrition and everything in between. UGA Extension had 1,808,305 face-to-face contacts in 2023. Of these, 170,771 contacts addressed health and wellness topics, including rural and farm stress.

Extension is committed to helping rural Georgia farmers and families thrive. UGA Extension provides physical and mental health resources to keep rural Georgia growing stronger, especially when times are tough. Our new Behavioral Health Team provides fact sheets, trainings and a weekly blog—all to help Georgia individuals and families thrive.

Growing cities.

UGA Extension helps urban gardeners develop school gardens, community gardens and urban farms to benefit their communities. Extension works with educators to create sustainable outdoor classrooms that function as successful teaching tools. Community gardeners are supported in growing healthy food crops in small spaces while urban farmers are encouraged to apply the latest agricultural research to grow their businesses.

Committed to Georgia's youth.

Georgia's 4-H enrolled 173,505 youths across the state during the 2022-23 school year.

Get the facts.

UGA Extension publications are the go-to source for unbiased, research-based information in the state of Georgia.

2024 FAST FACTS

UGA Extension translates the science of everyday living for families, farmers and communities to foster a healthy and prosperous Georgia.
