4-H – Pledge

I Pledge...

My **head** to clearer thinking,
My **heart** to greater loyalty,
My **hands** to larger service,
My **health** to better living,
for my **club**, my **community**,
my **country**, and my **world**.

Project Achievement

Students choose a project area of interest, research the topic, write a speech and present a presentation. A 4-H project is a good way to teach someone something you have learned about. 4-H leaders and teachers will be available to offer help with your projects. County wide projects are presented in November in your classroom. District Project Achievement is held in January/February

What is 4-H?

The University of Georgia College of Agricultural & Environmental Sciences works in cooperation with the Walker County Board of Education to provide positive learning experiences for youth in grades 4-12. In Walker County, more than 1300 youth ages 6-19 participate in 4-H each school year. Our mission is to assist youth in developing life skills to lead for a lifetime and make the best better!

What we do!

The in school club meetings for fifth graders are held monthly September through March. They provide engaging learning experiences to help promote personal development, leadership and citizenship skills. Georgia 4-H lessons are designed to enhance the Georgia Standards of Excellence. This year we will continue a pilot program in some Walker County 4th grade classrooms. There is no cost to join 4-H, however some of the extra curricular activities do have a fee. Each month 4-H'ers are given a newsletter with upcoming 4-H events and extracurricular
